EDUCATION

- Inderprastha Engineering College** Aug 2024 – Present
B.Tech in Computer Science Engineering Ghaziabad, UP
- Deep Memorial Public School** 2021 & 2023
Class 10th & 12th | CBSE Delhi

EXPERIENCE

- Green Skills & Applied AI Intern – 1M1B Foundation** June 2026 – Present
Sustainability, Climate Intelligence & AI Applications Remote
 - Developed **data-driven climate intelligence dashboards** using PowerBI to monitor energy consumption, water usage, and waste metrics across campus operations.
 - Built and applied **AI-powered environmental analysis tools** and open-source carbon calculators to streamline sustainability reporting and carbon footprint assessment.
- Co-Editor / Core Team Member – MUNify** 2024 – 2025
Content Strategy & Digital Growth Operations Remote
 - Engineered **end-to-end content pipelines** across editorial and campaign verticals, improving execution throughput by **~15%**.
 - Drove **multi-platform digital marketing strategies**, boosting delegate acquisition and event engagement metrics.

COURSES & CERTIFICATIONS

- Prime AI/ML Program** 2024 – Present
Apna College Online

PROJECTS

- AI Based Dropout Prediction System | Python, Scikit-learn, Pandas, NumPy, Matplotlib** 2025
 - Built a **supervised ML pipeline** using a Random Forest classifier achieving **~80% prediction accuracy**; applied SMOTE for class imbalance handling on educational datasets.
 - Performed **feature engineering, hyperparameter tuning, and cross-validation**; visualized model performance metrics and feature importances for stakeholder reporting.
 - Deployed an **end-to-end data preprocessing workflow** – missing value imputation, label encoding, and train-test splitting – improving model generalization on unseen data.
- Stock Trading Simulation Platform | React, Node.js, Express.js, MongoDB, JWT** 2024
 - Led a team of 4** to architect a full-stack **MERN application** with real-time portfolio tracking, virtual fund allocation, and Chart.js-powered trade analytics.
 - Implemented **JWT-based authentication, RESTful API architecture**, and role-based session management with a responsive dark-themed UI using Tailwind CSS.

ACHIEVEMENTS

- Hiveminds: Strategy Conquest S1** – National Finalist; ranked among the top teams nationwide in a national-level strategy and problem-solving competition.

TECHNICAL SKILLS

- Languages:** JavaScript, Python, Java, C, C++, SQL, HTML, CSS
- Frameworks & Libraries:** React, Node.js, Express.js, Tailwind CSS, Scikit-learn, Pandas, NumPy, Matplotlib
- Databases:** MongoDB, PostgreSQL, MySQL
- Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems
- AI/ML:** Supervised Learning, Feature Engineering, Model Evaluation, Data Visualisation, PowerBI
